

Committee to Elect James Wiley for Congress

www.Wiley4Vengeance.com

To the People of Colorado's 3rd Congressional District,

The Libertarian Party of Colorado entered a Pact with the Colorado Republicans to not challenge their candidates so long as they would pledge to abide by Libertarian Principles. Since then, Lauren Boebert, aka Beetlejuice, has publicly denounced our pledge and defamed the principles we cherish as unworthy. This insult to who I am as a Libertarian compels me to eagerly fulfill the duties invoked by the Libertarian Pact and challenge her in her district which she so nearly lost by only 542 votes. 542 votes are not enough to stop me from being the cause of her defeat.

In truth, I will be elected by the voters of CD-3 as their Libertarian representative to Congress because the land of our district is filled with Sovereign American People whose rights have suffered immeasurable damage by state actors. CD-3 needs activist leaders prepared and willing to demolish the federal government. These damages began to accumulate 247 years ago in the year 1776 and have now reached an abhorrent scale of violation too grand for a free People to submissively bear. An entire generation of elected officials will be replaced by radical American idealists prepared to reset and restore our federal governance to its most primitive and most powerless state of origin.

I am running for Congress with the goal of being one of the many representatives to answer the call and fulfill the duty to rapidly dismantle the federal government. I have a detailed plan that I look forward to communicating to the People over the next 14 months on how to do it and how we will begin to thrive once we are free of the government to live in a true Libertarian society.

My name is James Wiley, I grew up as a missionary in the former Soviet Union where I witnessed the effect that the opportunity of freedom balanced with personal responsibility can have in benefit to a society recovering from communism. Upon returning to America, I experienced the same journey play out in reverse, from freedom to tyranny and from personal responsibility to collective victimhood. I graduated from Pueblo County High School and went on to receive my MBA from CSU-Pueblo. I worked for 3 years in finance before first becoming a health worker and then a political and civil rights activist during the 2020 pandemic.

For three years I have fought for the rights of the People through organization, protest, and litigation. I've witnessed the decline of a Republic once far greater than even Rome herself. However, the decline of our Republic is not yet fixed in history. If we act with vengeance towards the federal government, the cause of our calamity, and leave nothing left when we are done, our Republic might yet be saved. The price of our Liberty may be as mild as our vigilance or as costly as our lives. Whatever the price may be, we joyfully pay.

Accordingly, I pledge to faithfully campaign as a Libertarian for the honor of serving you and the great purpose of our time. I further pledge to be limited to 3 terms and never to vape nicotine at any venue, including Fiddler's Green with Rob Zombie tomorrow night.

Thank you for your consideration,

James Wiley
Libertarian Candidate for CD-3
