

# Chad Humphrey

## for Congressional District #1

Chad Humphrey is a Denver-based entrepreneur and retired U.S. Marine Corps Officer who brings a rare blend of combat-tested leadership and high-level financial expertise to the political arena. A veteran of Operation Enduring Freedom, Chad transitioned from a distinguished 20-year military career to the private sector, where he became a self-taught programmer and the founder of Strategic Options, LLC.

Having earned an MBA in Finance from Pepperdine University just as the 2008 financial crisis hit, Chad has spent the last decade developing sophisticated algorithms for multi-million dollar portfolios and navigating the tech startup world. He combines a "scrappy," solutions-oriented mindset with the discipline of a Marine, making him uniquely qualified to tackle complex economic and systemic challenges.

Driven by a deep-seated frustration with both Democrats and Republicans, Chad is running to challenge a status quo defined by endless wars, reckless monetary policy, and the accelerated erosion of personal freedoms, just to name a few. He first raised his hand to defend the Constitution on January 20, 1993, and he believes it is time to get back into action to defend the front lines of liberty.

A staunch advocate for free-market principles and a vocal critic of the Federal Reserve's impact on the economy, Chad remains unshakeable in his libertarian values. For him, there is no purpose in seeking office only to sell one's soul to political entanglements; he is committed to providing a transparent, principled alternative for those tired of the two-party machine.

### **Key Issues**

1. Legalize the Constitution (congress needs to act as its role in the checks and balances)
2. End the Fed (return to the gold standard)
3. Abolish the IRS and Turbo Tax too!
4. As a Military Veteran: End the Wars and the Military Industrial Complex.
